

New Anti-Gun Attack Hiding Behind Campus Tragedy

Alarming details about the Virginia Tech tragedy underscore the importance of a citizen's individual right to keep and bear arms.

“A well regulated militia, being necessary to the security of a free State, the right of the people to keep and bear arms shall not be infringed.”

— Second Amendment to the U.S. Constitution

There were abundant warning signs that gunman Cho posed a serious threat to the campus community, yet here he was running loose and committing mayhem. And all that seems to be on the minds of many in the media and at the offices of gun control extremists is figuring out how to exploit this horrible tragedy to erode and eventually destroy the right, and the means, of self-defense.

The immortal words of Edmund Burke ring loud and clear in the wake of the events at Virginia Tech. “All that is necessary for evil to succeed is that good men do nothing.”

If this case demonstrates anything, it is the ineptitude of a system that is damaged if not broken beyond repair. Taken to a psychiatric hospital for evaluation in December 2005 by the police a Montgomery County district court ruled Cho a danger to himself or others. But doctor found Cho’s “insight and judgment” to be “normal,” and he was only given outpatient treatment.

Now the Anti-Gun Coalitions are trying to use these events to destroy the right of Americans to keep and bear arms to protect themselves under the law. They are attacking and hiding behind an Anti-Terrorist Agenda while getting political and financial support from:

- **George Soros a Hungarian-born billionaire** bank rolling efforts with his check book and spending more that \$100 million to destroy the Constitution.
- **Sen. Hillary Rodham Clinton (NY)** has consistently sought to trample the Second Amendment.
- **Sen. Dianne Feinstein (CA)** admitted that “guns would be banned and confiscated” if she could have her way.
- **New York City’s rogue Republican Mayor Michael Bloomberg,** is trying to ride the removal of your gun rights into the White House as a third party candidate.
- **The United Nations** actively pushes globalism seeking to disarm all Americans.

We must Stop the Anti-Gun Coalition and get ready for the biggest gun control fight of the year from coast to coast. We can not do that without your support.

Good Americans possess the strength of heart and the ardor to protect their fellow human beings from being harmed. Honorable people do exist, and they are far more common than their antithesis, the Cho’s of the world.

That is not the view that Washington anti-gun lobbyists hold. In the aftermath they seek to capitalize on the situation in order to further their agenda, of the disarmament of the American people. They seek to make it a law, that the good people of the world are not even able to do anything in the face of evil. They want you, the good people of the world, to be the first one to duck for cover behind a desk. To be the first to save your own skin. When faced with dreadful evil, their first response is to run, and hope you’re the fastest runner. Now they seek to force the selfless people of the world to abandon the means to defend themselves and follow the liberal’s cowardly ideals.

Stand up against this evil! Stand up for the right to not only defend yourself, but to defend your family, your children, your friends, and your classmates!

These tragedies should never happen, but they do when people are denied the means to fight back. If we learn anything from this, it is the value of the Second Amendment and self-defense. Those who believe in the true worth of life and liberty must have the means to protect it.

Place your faith in the good-hearted people of the world and support the SAF in standing up for the rights of American citizens to bear arms!

Sincerely For America,

Alan M. Gottlieb
